Lakeshore Benefit To Aid Garcias

A benefit for the Elvin Garcia family will be held at 2 p.m. Sunday, Sept. 16 on the Lakeshore Civic Hall grounds.

The benefit will include a shooting match for a yearling donated by "Paw" LaFrance of Ansley, and all kinds of other games and amusements.

Committee for the benefit includes Mrs. Malcolm B. Green, Rufus Lafontaine and John Neale. The group is asking for donations of cakes or other prizes to help make the benefit a success.

Commenting on the appeal for assistance in last week's Echo, a spokesman for the benefit committee said:

The benefit, they said, will be held to "show our thanks for our good fortunes."

In the appeal to make the benefit a success, the spokesman continued:

"Let's all work together and do our best to make this benefit the biggest and best ever given in Lakeshore for a most worthy cause, and courageous wife and mother who at this time needs your help so desperately."

BAY HIGH PTA HAS 1st MEET

Bay High School Parent-Teacher Association held its first meeting of the current session Tuesday night in the Bay High auditorium.

Mrs. C. C. McDonald, Sr., principal speaker of the evening, spoke on "Purposes and Ideals of PTA." She stressed the importance of parents and teachers working together. She declared that although most people thought the primary work of teachers was for higher pay, a national survey revealed that most teachers want smaller classes and better home-disciplined children. She said many teachers complained they had to waste too much valuable teaching time disciplining children who had not had proper home discipline.

Three girl scouts, Cleta Kay Miller of Marine troop, Edith Traub of the Intermediates, and Jan Osinich of the Brownies, appealed for more leaders. They said their scout activities were seriously curtailed for lack of adult sponsorship.

New members of the faculty were introduced, and Coach Lance Lumpkin, Donald Caldwell and Ray Holderfield asked for more support from the public of the school's athletic program.

Msgr. Michael J. McCarthy gave the devotional and the president of the PTA, Mrs. George Horton, presided at the meeting. Mrs. W. R. Crippen and Mrs. W. P. Henderson were hostesses. Refreshments were served in the lunchroom following the meeting.

Bishop Bowers Says Race Clouds Will Pass Over

A Negro Roman Catholic Bishop, and graduate of St. Augustine Seminary of Bay St. Louis, told newsmen in Chicago Monday that he is confident American common sense will dissipate the "clouds" in US racial relations.

The Most Rev. Joseph Oliver Bowers, bishop of Accra, the Gold Coast, consecrated here last year, said "I think they will pass over without any great violence resulting from them."

Bishop Bowers said the only explanation he can give for racial discrimination is the belief of many white people that the black people of the world are pre-destined to be inferior.

"Until this Calvinistic way of thinking breaks down, there will be no integration on a truly moral level," he said. The bishop predicted racial barriers will come down in Western Africa in a generation or two.

A new landmark has appeared in the Bay of St. Louis just south of the US 90 bridge as the rig for J. Willis Hughes' wildcat oil well was moved in this week.

The rig, a 900 hp Bethlehem 450, is mounted on a submersible barge 145-ft. long, 45 ft. wide, with a draft of 11 feet, 6 inches. In addition to the rig, Carter-Beveridge Drilling Co., contractors for the well, also brought in other complementary barges and crew boats.

The rig had been drilling in Mallard Bay above Morgan City, La.

Earlier a small rotary rig was used to set up 26-inch conductor pipe to a depth of 90 feet. The rig also set 480 feet of 16-inch surface pipe.

An 11,000 foot test is slated, with the bottom hole approximately 1,600 feet east of the surface location. The 11,000 foot test, same depth as the Cuevas, producing well in Ansley field, should test the present producing zone.

This will be the third offshore well drilled in the Mississippi sound. Gulf and Melvin drilled off Point Clear, near the Mississippi-Louisiana line, and Photo Mike Benedum drilled off Horn Island, south of Biloxi.

Ed-Carter of Carter-Beveridge said the barge carries storage for approximately 2,000 sacks of dry mud, and reserve tanks with enclosed settling tanks that will accommodate approximately 1,000 barrels of drilling mud.

Carter said a gate assembly encloses waste materials around the drill site, preventing contamination of surrounding waters.

Hughes told the Sea Coast Echo that every possible effort will be made to minimize any inconvenience to the public. "We hope we can find a little oil so everybody down here can participate in it," he added.

TRAPEZE AT HI-WAY DRIVE-IN

Magnificence, splendor, spectacle in the wondrous world of circus life are the elements that make up Hecht and Lancaster's latest motion picture, "Trapeze," at the Hi-Way Drive-In Theatre through United Artists release.

Topped by a star-studded cast with Burt Lancaster, Gina Lollobrigida and Tony Curtis in the leading roles, "Trapeze" features the most exciting and awe-inspiring acrobatic shots ever filmed. Filmed in CinemaScope and color, the complete pageantry of the circus sweeps and swings before your eyes in wave upon wave of thrills.

Directed by the noted Carol Reed, James R. Webb's screenplay is a story rife with romance and suspense.

As this story of a woman's attempt to break up a successful acrobatic act unfolds, Reed in a masterpiece of direction, keeps circus life and thrills on an even keel with the heart-rending love theme. The three leading players are superb, and the shapely Gina, proves once and for all that she is also a fine dramatic actress. A host of other excellent performances are turned in by such players as Katy Jurado, Thomas Gomez, John Puleo and Minor Watson.

The heartbreaking story in last week's Echo, about the Elvin Garcia family has made many of us realize just how fortunate we are. And so to show our thanks, for our good fortunes there will be a benefit Sunday, Sept. 16th for Elvin Garcia on the Civic Hall ground at 2 p.m. There will be a shooting match for a yearling, donated by "Pas" LaFrance of Ansley, and all kinds of other games and amusements for young and old. Women's Homemaking To Be Leading Exhibits At State Fair

The Home Demonstration Women's Exhibits at the 1956 Mississippi State Fair, said Miss Earle Gaddis, State Home Demonstration Agent, recently, are expected to be larger and better this year than in the past, especially in the food preservation division due to the abundance of high quality fruits and vegetables produced in the state this year.

The Home Demonstration Club members of the State will be participating in three divisions of the annual Agricultural and Industrial Exposition which is to be held in Jackson the week of October 3 through 13. These divisions are food preservation, arts and crafts and the 1956 Cotton Bag sewing contest.

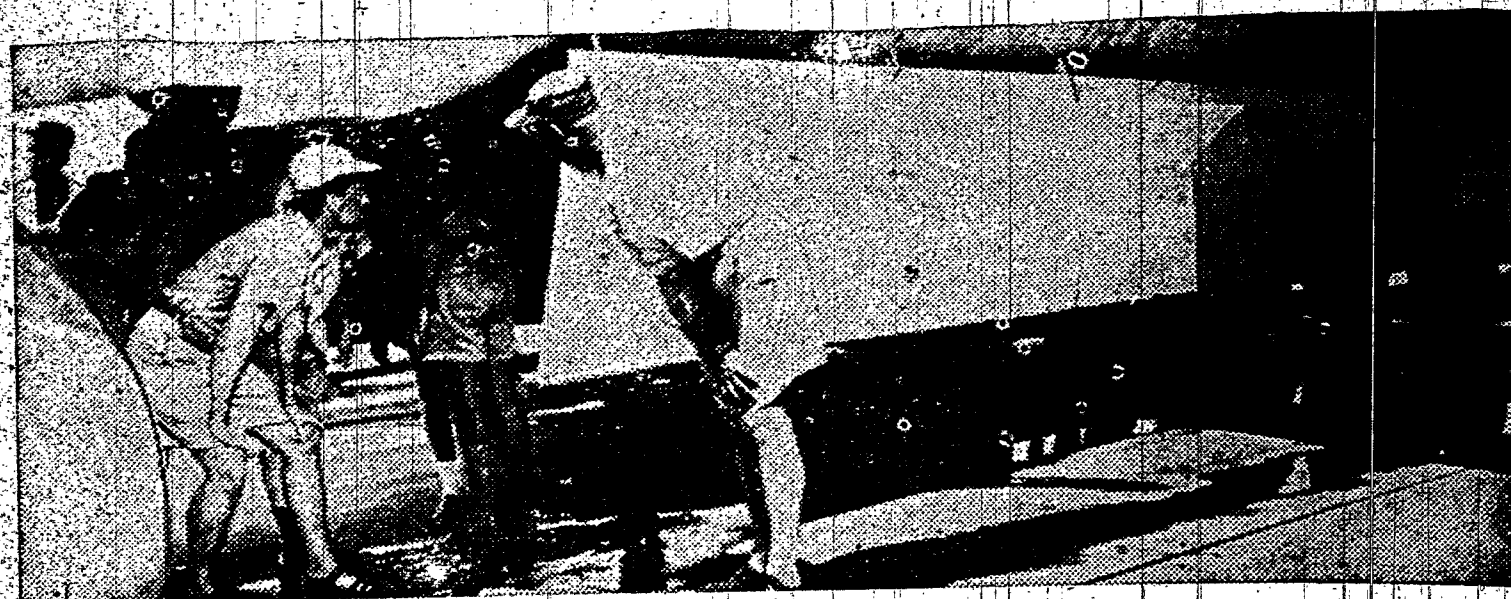

Between 1200-1500 jars of fruits, preserves, pickles and vegetables are scheduled to be entered in the Food Preservation Division of the Women's Home Demonstration Work department to compete for ribbons and premiums. The amounting to \$725.00, as well as special awards, totaling \$35.00 to be given by Knox Glass, Incorporated, for the coming outfit, sport shirt, counties and individual receipts and mother and daughter ing the greatest number of blue dresses. Only one article may ribbons. The competition is open to all women in the state. All products must have been made since the first of April 1956 and no of the year. Official entry exhibitor will be awarded more than one prize, under one lot number. Entries must be received by the Mississippi State Fair Headquarters by Friday, October 5, to remain on display until the end of Fair Week. Mrs. Boyette and Miss Edwina Morris, Assistant Specialist in Foods and Nutrition, will serve as judges on the products entered in this division.

The Arts and Crafts competition is open to all residents of the state and as the interest in this exhibit has increased yearly, a record number of fine quality articles are expected to be on display for fairgoers to admire.

In this division all specimens must be the handwork of the exhibitor and made in 1956 or 1955. Prizes to be given for articles will amount to \$500.00 and no exhibitor will be awarded more than one prize under one lot number. Applications for entry blanks are to be sent to Miss Gordon at State College.

The various classifications of the Arts and Crafts Division include rugs, quilts, crochets, needle work, basketry, chair reseatings and toiled tea.

Refreshments were served on the spacious rear porch. The table, covered with a gaily printed birthday cloth, was centered with the cake topped with traditional candles. Suckers and balloons as favors were given to the guests who were received for the 1956 Cotton Bag Jim and Lewis Wagner Jr., Sewing Contest, which is to be an intensive competition due to the twenty-four cash prizes, and the grand fair prize, which is David McCoy and Gary Grit.

County Agent Notes

Conservation Reserve Of Soil Bank Program

We have learned more about the recently announced Conservation Reserve part of the voluntary Soil Bank Program. Our advice is the same as we gave for the Acreage Reserve—talk it over with the folks at your county ASC office. They can figure what participation can mean to you in your individual farming situation.

For each farm participating in the Conservation Reserve, there will be established a "farm Soil Bank base." This base will be the average acreage for the past two years in cotton, corn, soybeans, small grains, rice, sorghum, commercial truck and similar crops. If participating, you agree to take a definite acreage out of the crops just named. Then you may apply approved conservation practices on an acreage equal to your reduction below the 1957 participation the deadline is March 15th.

The Conservation Reserve practices provide generally for a grass or legume cover on the land, planting trees, ponds for livestock water and wildlife protection.

These practices are similar to the ACP, which the Conservation Reserve supplements. A difference is that no grazing or crops harvest is permitted on land in the Conservation Reserve, unless permission is given in an emergency.

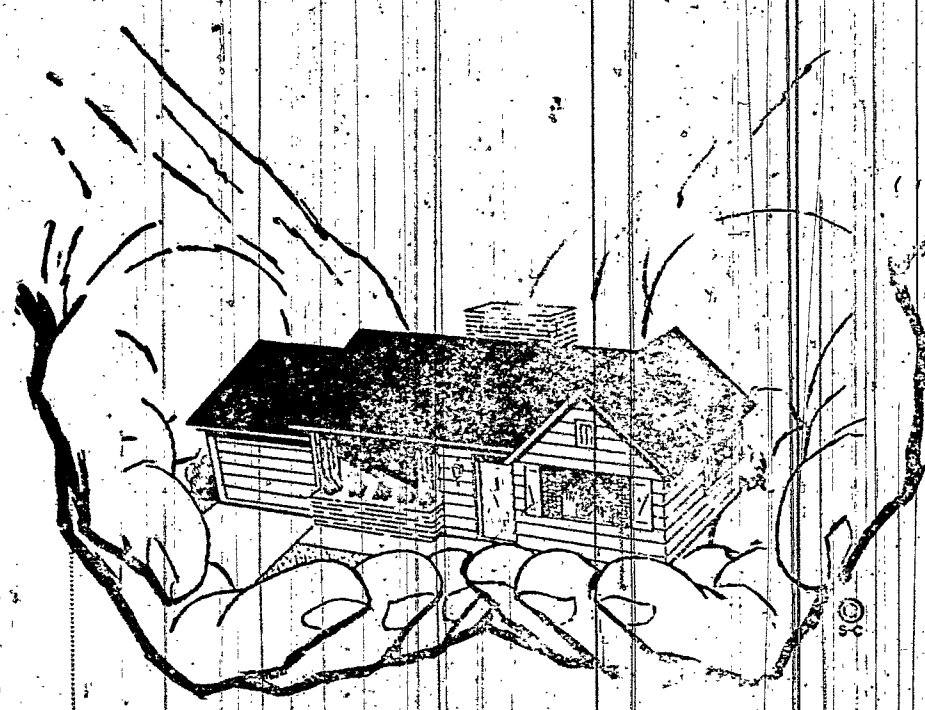

Another difference is that the Conservation Reserve may pay up to 50 percent of the cost of establishing a practice. This compares to the approximate 50-50 cost-sharing of the ACP.

The second kind of payment for the past two years in the annual payment of about \$10 per acre per year for the duration of your contract.

Contracts for 1956 Conservation Reserve participation may be signed at county ASC offices on or before October 15th. For to your reduction below the 1957 participation the deadline is March 15th.

What Industry has been paying State taxes of \$4 million a year?

The brewing industry has been Mississippi's 4th largest taxpayer. Increased public acceptance of beer as the beverage of moderation produced 4 million dollars year after year in taxes for Mississippi schools, rural roads and other necessary functions of local and state government. The state's tax on malt beverages remains unchanged as one of the highest in the nation, but recent restrictive legislation is substantially reducing the revenue from this important source.

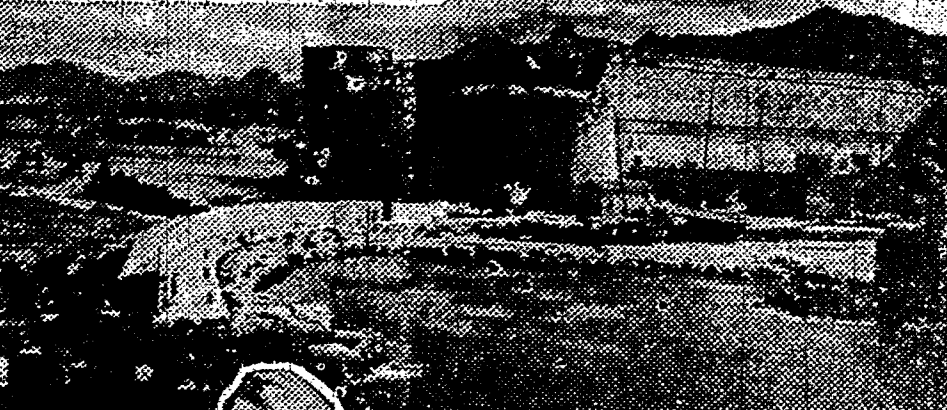

Farmers benefit widely from brewing since the industry purchases over \$250 million worth of farm products each year. Brewing is also an important market for more than 100 different trades throughout the nation.

Investment in buildings, fixtures, trucks and equipment by Mississippi's 57 beer wholesalers and over 5,000 retailers totals \$28,966,000. This is a sizeable industry for any area and, gives employment to over 16,000 Mississippians.

THE SALESMAN

And in those days, behold, there came through the gates of the city a salesman from afar off, and it came to pass as the day went by he sold plenty.

And in that city were they that were the order takers and they that spent their days in adding to the alibi sheets. Mightily were they astonished. They said one to the other, "What the heck, how doth he getteth away with it?"

And it came to pass that many were gathered in the back office and a soothsayer came among them. And he was one wise guy. And they spoke and questioned him saying, "How is it that this stranger accomplished the impossible?"

Whereupon the soothsayer made answer: "He of whom you speak is one hustler. He ariseth very early in the morning and goeth forth full of pep. He complaineth not, neither doth he know despair. He is arrayed in purple and fine linen while ye go forth with pants unpressed."

"While ye gather here and say one to the other, 'Verily this is a terrible day to work,' he is already abroad. And when the eleventh hour cometh, he needeth no alibis. He knoweth his line and they that would save him off, they give him orders."

"Men say unto him, 'May when he cometh in, and he taketh not nay for an answer."

And when he goeth forth he hath their names on the line that is dotted.

"He taketh with him the two angels 'inspiration' and 'perspiration' and worketh to beat heck."

"Verily I say unto you, go and do like-wise."

"Do you like cycling with a group?"
"No, I prefer to cyclole."

A navy lieutenant at a South Sea island station undertook to give an old native a lesson in basic English. He pointed at a marine and said "man."

The native dutifully repeated, "Mdn."

That gave the volunteer teacher a thrill. He went on and pointed to a palm tree.

"Tree," he announced. The native echoed "Tree." That certainly was progress.

Just then a plane roared overhead. The lieutenant thought he'd give the native the first chance this time. "What?" he asked, pointing upward.

"I'm not sure," said the native as he squinted at the plane. "It looks like a PEZY, but it might be a B-21."

A serious impediment to marriage is the difficulty of supporting the government and a wife on one income.

Two men worked side by side in a Pentagon office in Washington. They never spoke, but each watched the other. One man finished his work daily at four o'clock. The other toiled on until six or later.

A month passed. Then the harder working of the two met the other.

"Beg your pardon," said the hard worker, "but do you mind telling me how you clean up your work every day at four o'clock?"

"Not at all," smiled the other worker. "When I come to a tough piece of detail, I mark it 'Refer to Commander Smith.' I figure that in an outfit as large as this, there is sure to be a Commander Smith. And I must be right, none of these papers come back to me."

The hard worker removed his coat. "Better, prepare for action," he snarled. "I'm commander Smith."
